I Remeber in this forum there was a complaint about the Lafto Kifle ketema Karta renewal. I got it now a bunch of corruputed employee who go to the extreme to put you into their trap by holding a finshed Karta - creating lame causes. I adviced my friend who payed the money to the proper govenment channel to wait and see and report it to the police (if they are immune)with enough evidence than paying a gangster who take advantage by denying my friend his right to have a renwed karta. On this occassion I would like to thank those employees of Lafto Kifle Ketema who really do their jobs professionally.
